

RP-IPJ811-60W

60W Industrial Gigabit PoE+ Injector

The RP-IPJ811-60W a high power single port Industrial POE Injector provides PoE power budget up to 60W. The device supports 10/100/1000Mbps data transmission and is powered with 48-56 Volts DC.

The built-in 4 pin DIP switches are able to select POE for Mode A or Mode B, to select standard IEEE802.3at 30Watts or high power 36Watts, and to select 2 pair or 4 pair for 30/36Watts or 60/72Watts power output. This is possible through the use of all four pairs of twisted-pair cables.

RP-IPJ811-60W is well suited for applications in deploying IP surveillance, traffic monitoring and for a broad range of applications. It is being rigorously tested for your Security, Transportation and Telco application in climatically demanding environments with wide temperature range from -40 to 75°C. With IP30 industrial case protection, the device provides a high level of immunity against corrosion and electromagnetic interference. RP-IPJ811-60W also allows either DIN rail or wall mounting for efficient use of cabinet.
